Experience

Supply Chain Consultant (Contract), Curatyx – London, UK April 2023 – July 2024

- Implemented and developed the DEAR ERP system, significantly enhancing purchase and sales management processes.
- Created an online portal (Ruby on Rails) to effectively showcase the product range to potential customers and allow existing customers to place orders.
- Established end-to-end Frozen & Chilled supply chains, involving 20+ suppliers and multiple 3PL warehouse locations.

Senior Supply Chain Associate, Weezy / Getir – London, UK July 2021 – Apr 2023

- Led project to direct all ambient goods through a central depot for further distribution to Dark Stores, leading 6 junior associates and 3 warehouse supervisors for the duration.
- Utilised Looker, SQL, and Tableau for supply chain management, sales analysis and forecasting.
- Led integration of partnership with Co-Op for the fresh category, distributing to 140 fulfilment centres, personally managing accounts totalling over £1.5mm per month.
- Created Odoo ERP applications (Python) to track purchase order status leading to a total absence of delivery errors within the Supply Chain team.
- Implemented forecasting techniques, boosting fulfilment rates from 80% to 95% and reducing waste by 30%. Created a Python application to automate this work for other teams.

Head of Supply Chain, Recyclabox – London, UK March 2020 – May 2021

- Led the creation of an end-to-end supply chain from prototype to production of a freestanding reverse vending machine.
- Onboarded over 50 new vendors, sourcing c. 400 SKUs, negotiating prices and contracts.
- Implemented new operational efficiencies via a combination of air-freight and local manufacturing leading to over £500k in cost savings.
- Managed production of equipment via a third party manufacturer and assembly plant.
- Developed Odoo ERP (Python) to manage BoM and stock tracking.
